1 Description

Series SDVPSA-3... sandwich valves are high performance, proportional pressure-relief valves with a size 05 interface to 4401-05-04. The main components of the valves are a sandwich body (stack-mounting body) and the screw-in, proportional pressure-relief cartridge, type DVPSA-3D...-10. These sandwich valves are used to limit the system pressure in mobile and industrial applications. All external parts of the cartridge are zinc-nickel plated ac-

cording to DIN EN ISO 19 598 and are thus suitable for use in the harshest operating environments. The slip-on coils can be replaced without opening the hydraulic envelope and can be positioned at any angle through 360°. The sandwich body is sealed at its manifold side (the connections side) by means of O-rings fitted in a seal plate that is supplied with the valve.

4 Performance graphs

IMPORTANT!

Detailed performance data and other hydraulic characteristics can be found in the data sheet for the proportional pressure-relief cartridge that is fitted (data sheet ref. no. 400-P-581401-E).

ATTENTION!

The performance figures in the data sheet for the cartridge valve refer just to the cartridge itself. Take into account the additional pressure drop in the body into which it is fitted.

6 Installation information

IMPORTANT!

When installing the valve, make sure that the mating face (the manifold interface) aligns with the valve interface. Do not confuse the sandwich valve's manifold side and directional-valve side. No adjustments are necessary, since the cartridges are set in the factory.

ATTENTION!

To achieve the proportional pressure-relief cartridge's maximum performance rating, fit the solenoid coil as shown (with the plug pins at the left). Use the specified tightening torque when fitting the cartridge.

ATTENTION!

Only qualified personnel with mechanical skills may carry out any maintenance work. Generally, the only work that should ever be undertaken is to check, and possibly replace, the seals. When changing seals, oil or grease the new seals thoroughly before fitting them.
